side section cm

* Please note that the bathtub model offers the possibility of positioning pool handle. Moreover, the mounting height (incl. whirl system) must not exceed 640 mm. Attention! In case of any servicing work to be performed on controls, blowers and pumps after installation, an inspection opening has to be provided. For orders of 6-corner whirlpool baths or in case** special drillings will be required, please provide us with an installation and/or dimensioned sketch indicating diameter of whole and rosette as well as tap body. **Some models may have a projection of the system components.**

ORDER FORM WHIRL

KALDEWEI

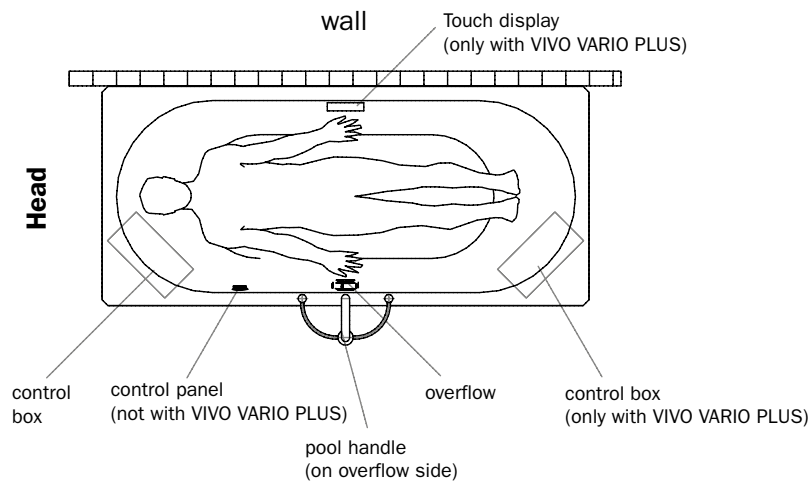

Customer:

Order data:

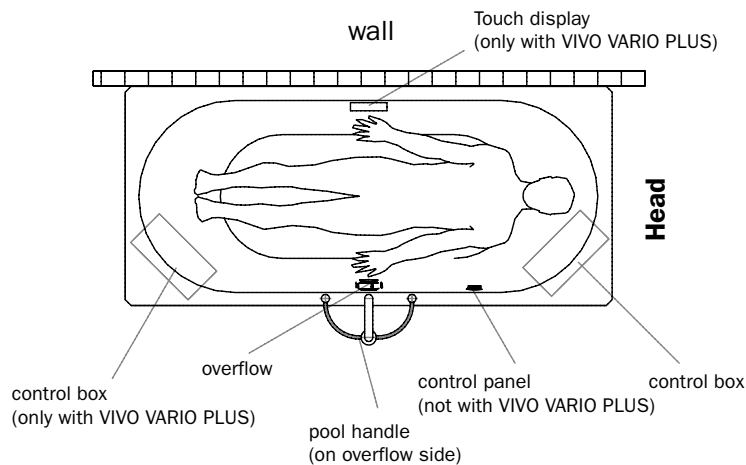

Kaldewei whirl baths are available in two different specifications – left and right version, as demonstrated in the drawings below. Please cross check the requested installation situation with one of the following drawings and tick the selected specification on the order form.

Note: Control box arrangement as shown in the sketches can be changed on request in VIVO VITA and VIVO AQUA systems. See “Technical information Whirl systems” for information about required inspection opening and installation requirements.

RIGHT VERSION
